

QUALIFICATION NAME

LEVEL 2 APPRENTICESHIP – ARCHITECTURAL JOINERY (BENCH)

AREAS COVERED

Manufacture and assemble a range of standard products for domestic and commercial buildings which include:

- Various types of internal and external doors
- Various types of windows including casement, sliding and sash windows
- Units and fitments including kitchens, bedrooms, counters, commercial shops /office requirements
- A range of staircases, handrails and balustrades

COURSE CONTENT

- During day release at college, apprentices will study theory work as well as practical work
- Apprentices will learn to understand and interpret site management technical information including drawings, specifications and schedules
- Apprentices will also complete an **End Point Assessment (EPA)** in the form of a written theory exam and practical skills assessment
- Training must include **20% off the job training**, which is undertaken outside of the normal day-to-day working environment and leads towards the achievement of an apprenticeship. This can include training that is delivered at the apprentice's normal place of work, but must not be delivered as part of their normal working duties
- Apprentices will also achieve level 1 or 2 functional skills in maths and English, if required

DURATION / COURSE FORMAT

- The apprenticeship takes 24 months to complete
- The apprentice will complete the qualification in the workplace as well as attending college 1 day per week

Further information can be obtained from the apprenticeship department: 0161 908 6608
