Equipped with state-of-the-art facilities, the IoT & Tameside College ensures practical, industry-aligned training which contributes to the economic development and competitiveness of the Greater Manchester & Tameside region; preparing a skilled workforce ready to meet local industry demands.

Being a student at the Greater Manchester Institute of Technology offers industry-aligned education, state-of-the-art facilities, strong employer connections, and hands-on training. The innovative curriculum ensures students gain in-demand skills and real-world experience, preparing them for successful careers in key sector.

COURSES AVAILABLE:

THE BELOW COURSES ARE LEVEL 4 UNITS, THEREFORE SOME RELEVANT EXPERIENCE IS REQUIRED.

+ FF0092MQ/1 - FUNDAMENTALS OF AI AND INTELLIGENT SYSTEMS

Starts Thursday 11th September 2025

Thursdays, 17:00 – 21:00 | 15 Weeks

This course is ideal for business leaders and decision-makers looking to integrate AI into their strategy, employees in both technical and non-technical roles interested in AI adoption and professionals across various industries such as finance, healthcare, retail, and manufacturing.

+ FF0090MQ/1 - CYBER SECURITY

Starts Thursday 22nd January 2026

Thursdays, 17:00 – 21:00 | 15 Weeks

You will gain insight into the types of systems and technologies available for effective information processing. You will use critical analysis to examine the integrated role that each type of system and technology plays in contributing to the efficiency and competitiveness of organisations.

+ OF0090MQ/1 - PRINCIPLES OF BUSINESS SUSTAINABILITY

Starts Wednesday 10th September 2025

Wednesdays, 17:00 – 21:00 | 15 Weeks

Sustainability is no longer just a corporate buzzword; it is a fundamental business need. As organisations worldwide face growing pressure from stakeholders, regulators and consumers to act responsibly; integrating sustainability into core business strategies has become essential. This unit provides an in-depth exploration of sustainability principles, equipping students and professionals with the knowledge and skills to drive meaningful environmental, social and economic impact.

+ OF0092MQ/1 - SUSTAINABLE BUSINESS PRACTICES

Starts Wednesday 21st January 2026

Wednesdays, 17:00 – 21:00 | 15 Weeks

With sustainability becoming a core business priority, this unit offers invaluable insights for individuals and organisations seeking to drive positive change. By equipping learners with the tools to develop and implement sustainable business strategies, this course fosters responsible leadership and future-proof business models. In order to complete the Sustainable Business Practice, learners must have completed the Principles of Business Sustainability
